

An online resource to assist you in finding the right funders for your project

Generosity New Zealand provides online search tools which offer access to nearly \$4 billion of funds.

Their givUS section contains comprehensive information about funding specifically for New Zealand community groups like Playcentre.

It aims to collect together all sources of discretionary grants in New Zealand, including philanthropic, statutory, government and local government funding schemes.

Select from picklists of options to narrow the search to where you are based, what you want to spend the money on and givUS will give you a list of all funders you can try.

Your Centre will need to initially create an account when you click on the following link which will associate your Centre with the NZ Playcentre Federation subscription at no additional cost to your Centre.

Attached below is the link to the upgraded platform. Please replace all your current Generosity links.

Sign up: <https://kohaa.org.nz/subscriptions/signup/002db5c7-24f2-4c31-954d-53b93a3fe947>

Log in: <https://kohaa.org.nz/login>

Your current customers will only need to reset their passwords as they log in. This should be the only change for them.

We hope you find this upgrade addresses many of the frustrations caused by the last build and encourage you to contact us with any suggestions you have for making our Generosity Exchange Platform work better for you.

If you have any questions, please contact helpdesk@generosity.org.nz
